Part 5: Mental Health Care Choice (optional)

Fill this part out only if you want to give your patient advocate the power to decide if you get mental health care.

Before my Patient Advocate can make mental health decisions for me 2 things must happen. First, a doctor and a mental health provider have to examine me and talk with me. Then they must write down that I can't make my own decisions.

I can cancel my Patient Advocate's power to make mental health decisions for me. But it won't take effect for 30 days. It takes this long only for mental health care, but not medical care.

If my Patient Advocate agrees that I need to be in a mental health hospital, I still have the right to tell the hospital I want to leave. But I have to give the hospital 3 days' notice.

This is a list of decisions your Patient Advocate can make about your mental health care.

Put an X in the circle next to all the sentences you most agree with.

My Patient Advocate can decide for me about:

- Getting mental health care at a clinic or someplace besides a hospital.
- Staying in a hospital to get mental health care as a voluntary patient.
But I can still tell the hospital I want to leave in three days.
- Going to a hospital to get mental health care even if I don't want to go.
- Getting medicines that may change how I feel, think or act.
- Electroconvulsive (electric shock) therapy

By signing this form, I agree to allow my Patient Advocate to make my mental health care decisions if two doctors say that I cannot make my own decisions.

(Sign your name here to give these powers to your Patient Advocate)
